その頃、小田桐邸の近辺で不審な一団を見かけ追跡したアブトムは、品川埠頭で4人のリベルタスに襲われる。変幻自在のその能力に、かつての自分の姿を見るアブトム。

獣神将シンが見守る中、晶と顎人の戦いはエスカレートし、遂には両者とも巨人殖装を纏うに至る。ギガンティック・ダークが放ったギガ・スマッシャーを、両掌の間に形成した〝マイクロ・ブラックホール〟で封じ、勝利するギガンティックXD。因縁の対決を制した晶は――

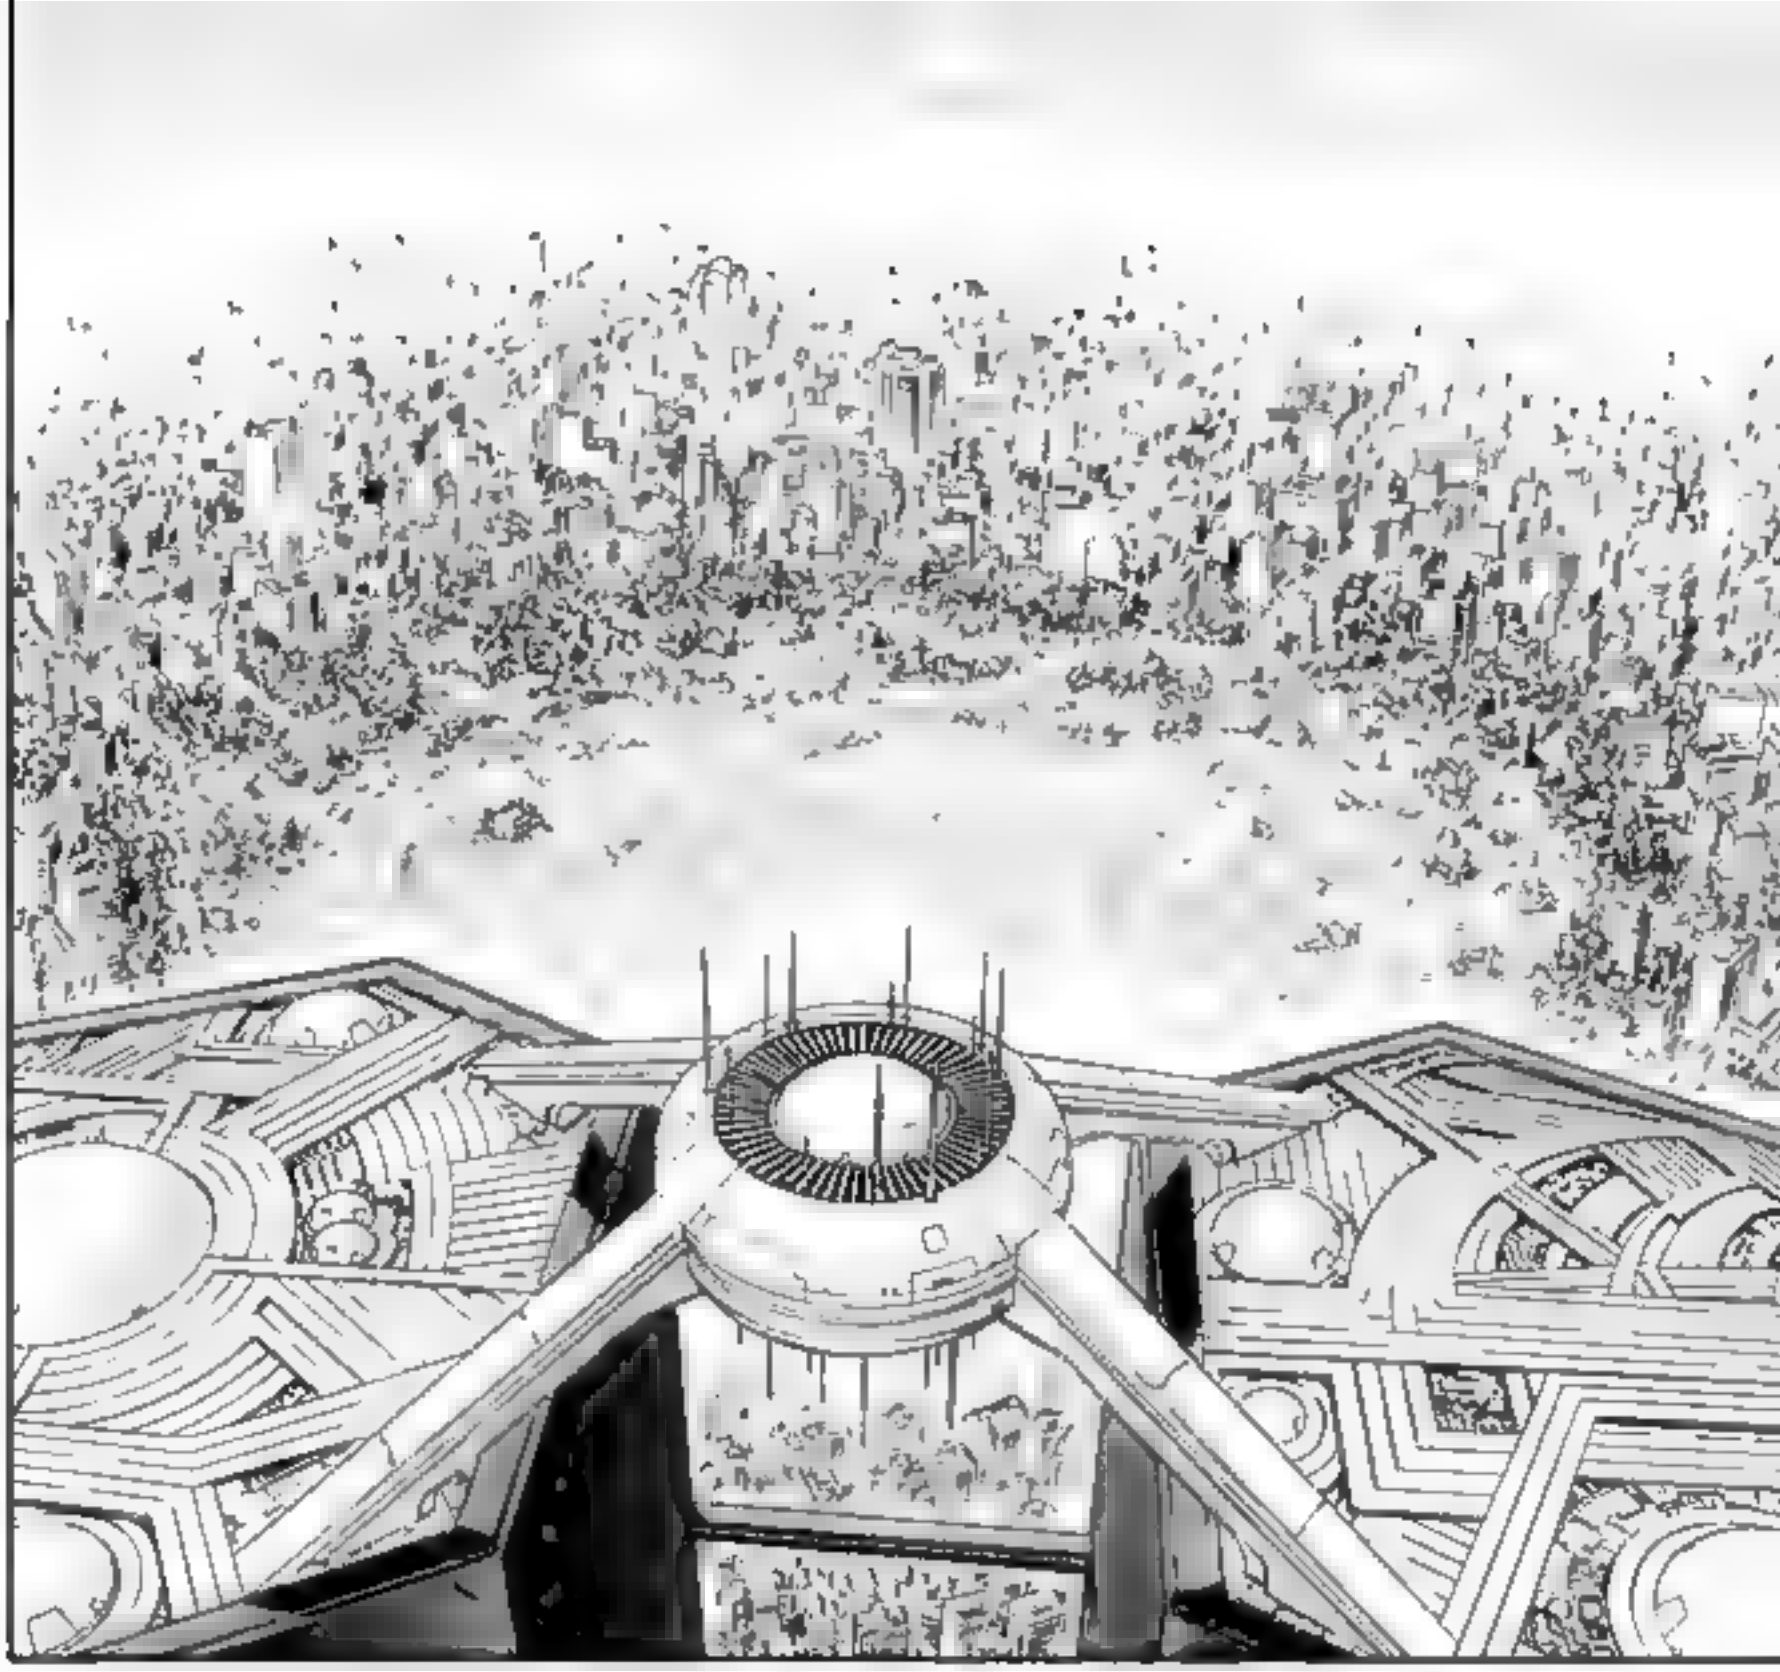
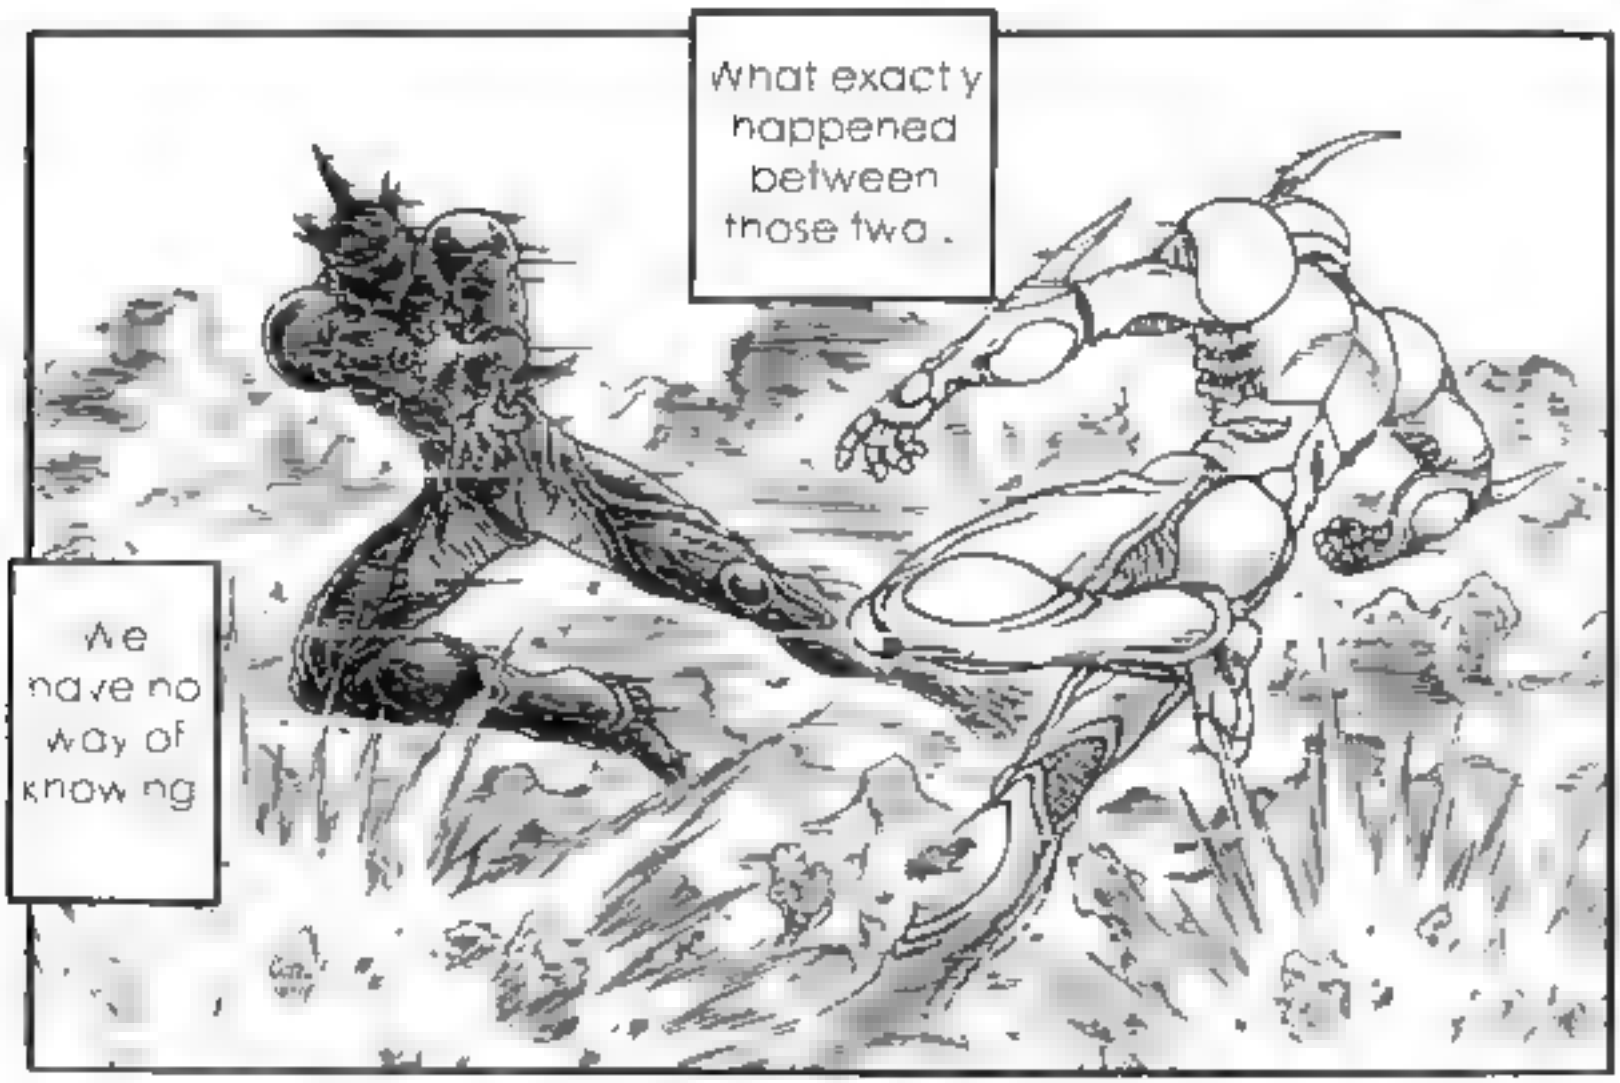
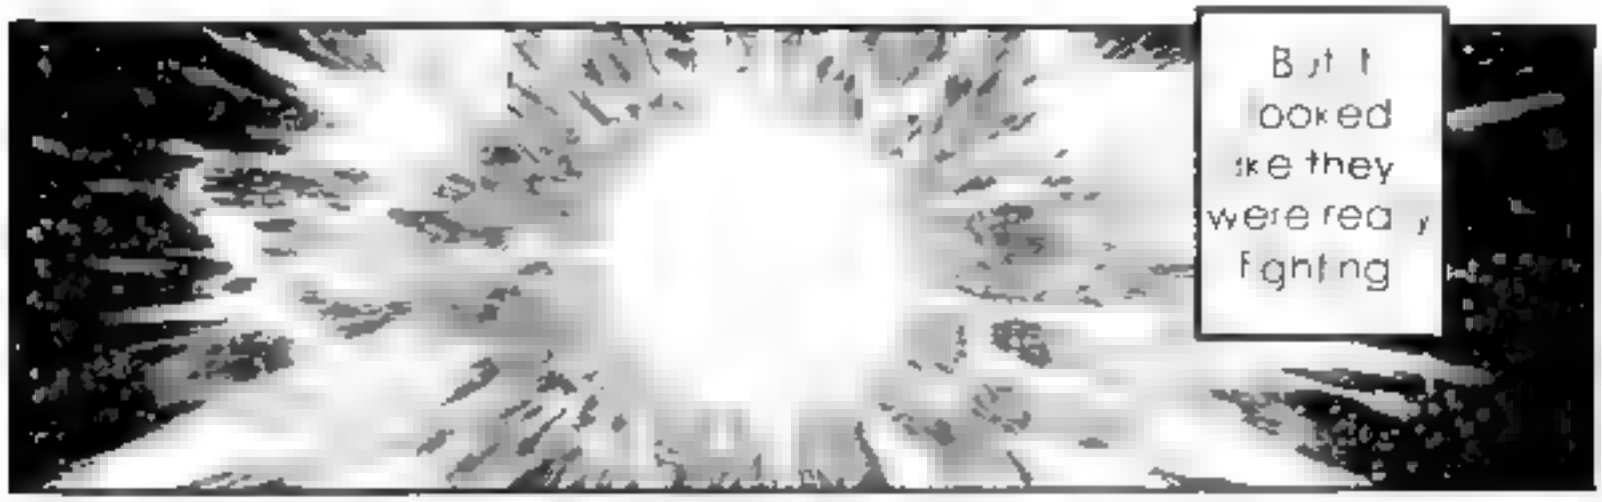
Chapter 183
The siblings' whereabouts



At this site in west Shinjuku was the death match between Guyver and Guyver II.
Late night two days ago



What exactly happened between those two.
We have no way of knowing



But it looked like they were really fighting

Both combatants equipped their G gantic

The battle escalated.

But...

to deploy my barrier

In order to protect Cloud Gate

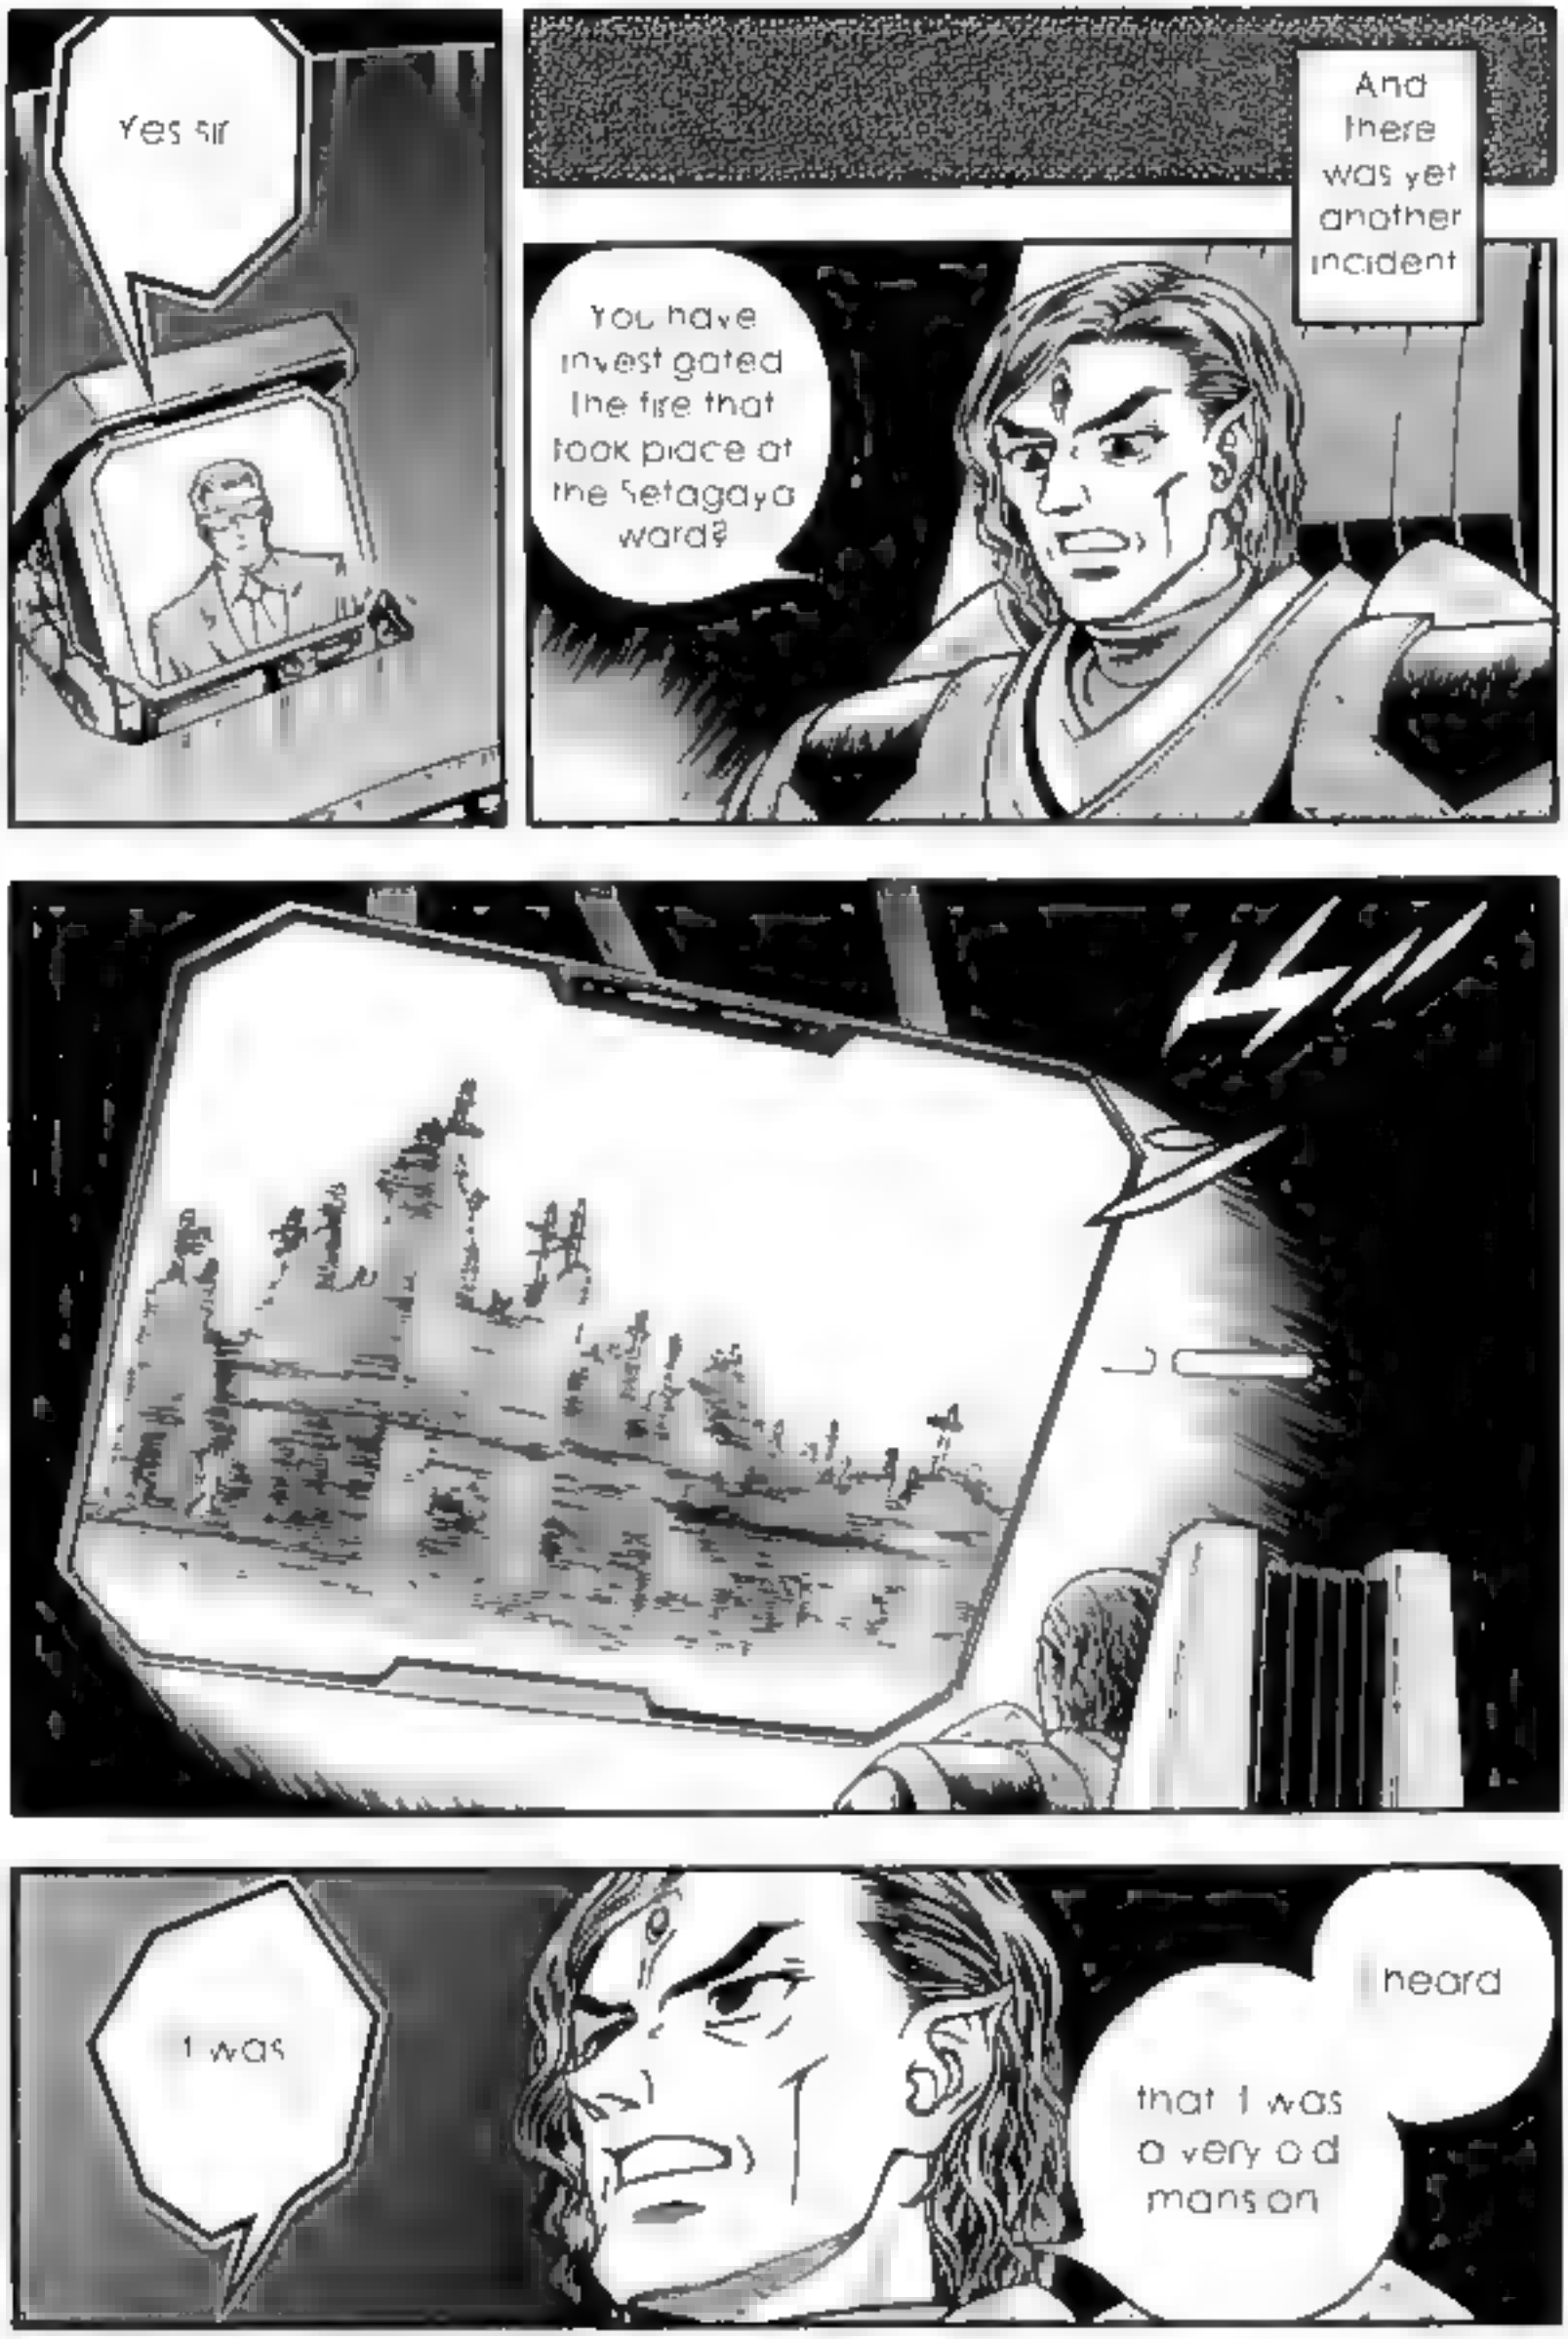
another incident occurred



Yes sir
And there was yet another incident
You have invest gated the fire that took place at the Setagaya ward?
I was
I heard that I was a very old mans on

But from the results of the investigation

There's no doubt that there has been recent human activity

The neighbors say It was already abandoned a long time ago

He was the Relics Point basement evel head scientist

This was the mansion of Odagiri Yoshio

During the era of the orgina Cronos Japan,

When the former Japan branch and Relics Point were destroyed

the majority of applicable data was lost

and due to that they were omitted from the participating Cronos engineers list.

When Odagiri's chief assistants came out above ground

It's likely that they used this as her lodging house.

n addition...

Hmm

And since the establishment of the new regime

It seems no staff checks were carried out

about that certain somebody who was said to have been hiding out there

Yes.

In conclusion from our findings.

that it was Fukamachi Shoji and the Guyver group

It's quite probable

Just as thought

is about the ca se of what happened n Re ics Point at Mo nl Mnakam

Those staff must be the ones who conceal ed Guyver nside the relics base

So that's how it was

...nt they could use the power of the Guyvers.

It seems that way

So because of this prior involvement the Guyvers were still in contact with the research members

There was another person who accompanied Guyver I

It may be that he was one of the research members

Also

When the Guyvers invaded Cloud Gate

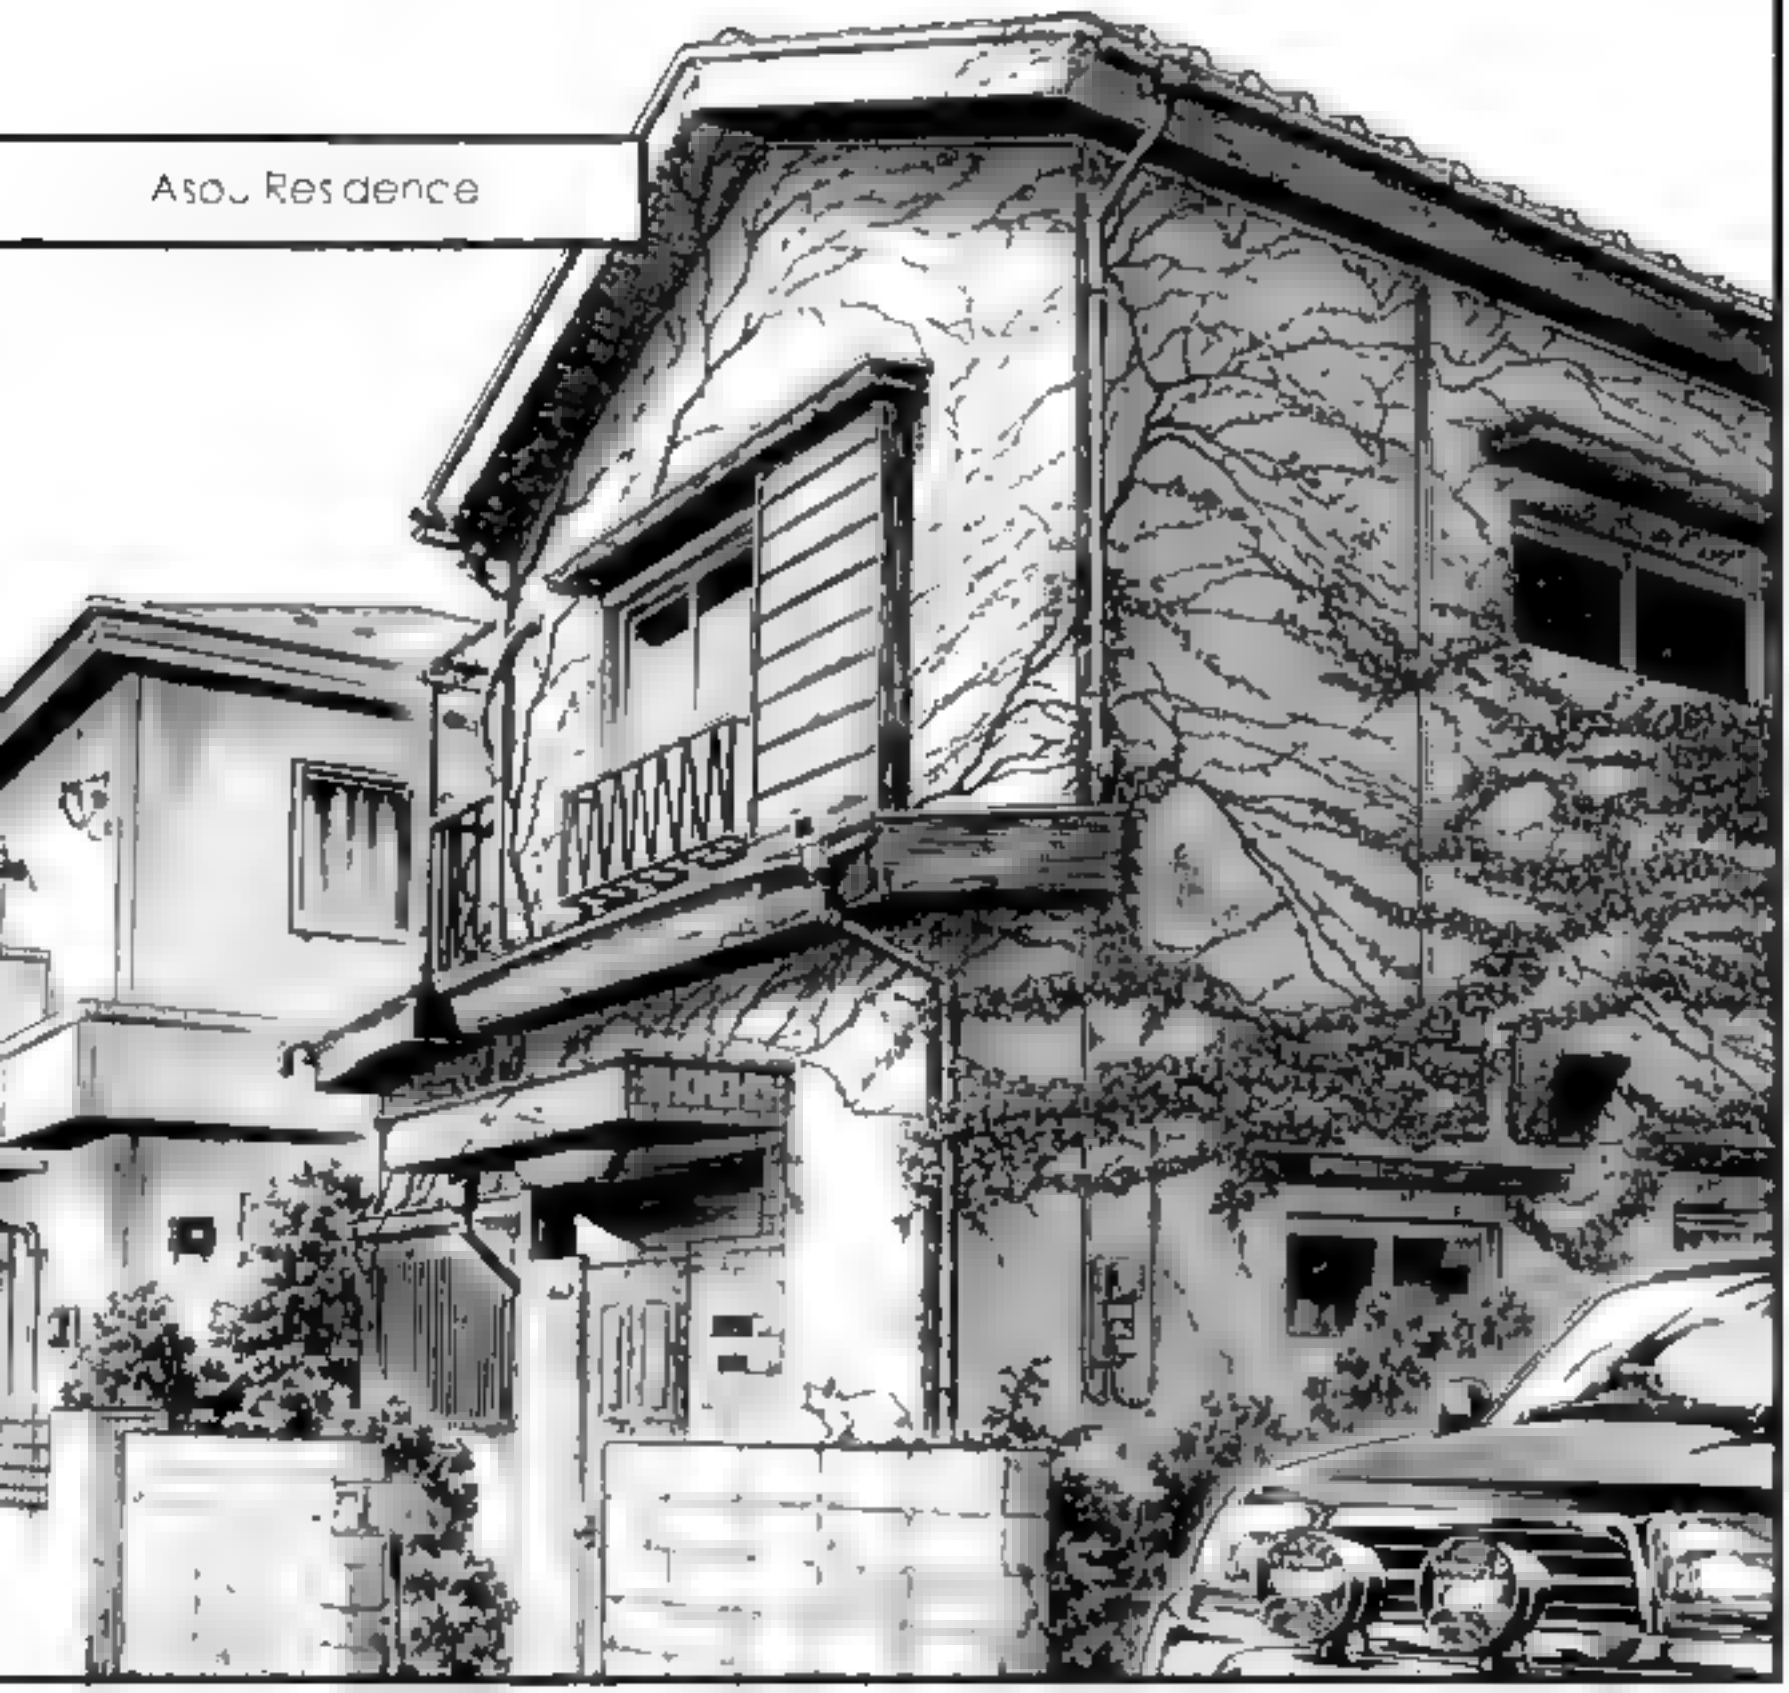
At night he equips the Guyver
With Aptom they both search for any kind of clue.
In the day time he rests at Asou-sen pai's house

Of course
Unre enting y pers stent...



Asou Residence

Let us analyse your current circumstances
Right then

"Guyver III" Mak sh ma s t? Suddenly t mea up at Oaagr s mansion

We to begn w th

to settle a dispute with Shou-kun

His second in command Tack Tetsuro and the others hostage

However, while you two fought n Shinjuku ruins

yet another enemy attacked the Odagiri Residence

The leader was .

Richard Guyot.

Former, one of the "Twelve Holy Commanders"

How can he still be alive...

Goyot...

Onuma Shizu

Grisedia

Keeping watch and acting as a bodyguard

so this 'Gri-something protected the residence

eaving his pseudo-Zoanoid under lings and their commander

so Makishima accounted for that kind of scenario

n fact she was risking her life to protect us

While you could say Shizu san was holding us hostage

.....

was revealed as Guyot's underling

Is that the rumoured female Guyver

"Guyver [illegible]

What was surprising

But of all things she gets into bed with that Guyot

So she's our enemy right?

that we could have become allies

You would have thought seeing as she was fighting Cronos

About Guyot though.

Having listened to Aptoms account carefully

the attack on Odagiri residence

The objective was the abduction of Testurou and Mizuki right from the start

I almost died.

That's right forgot about that

Oh?

I dare say that Guyot

But Aptom arrived and caught me saving me by a hair's breadth

And he was just waiting for a chance

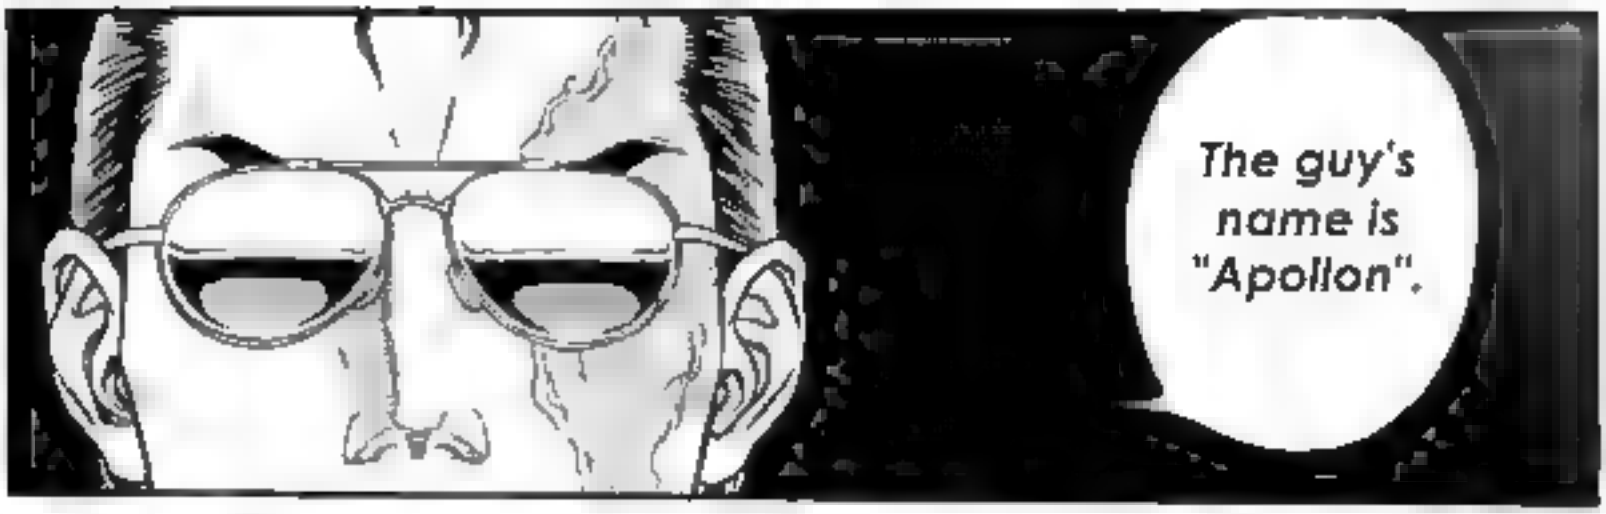
knew we were hiding in Odagiri Residence for a while

But when he did try his plan to kidnap the Segawa siblings

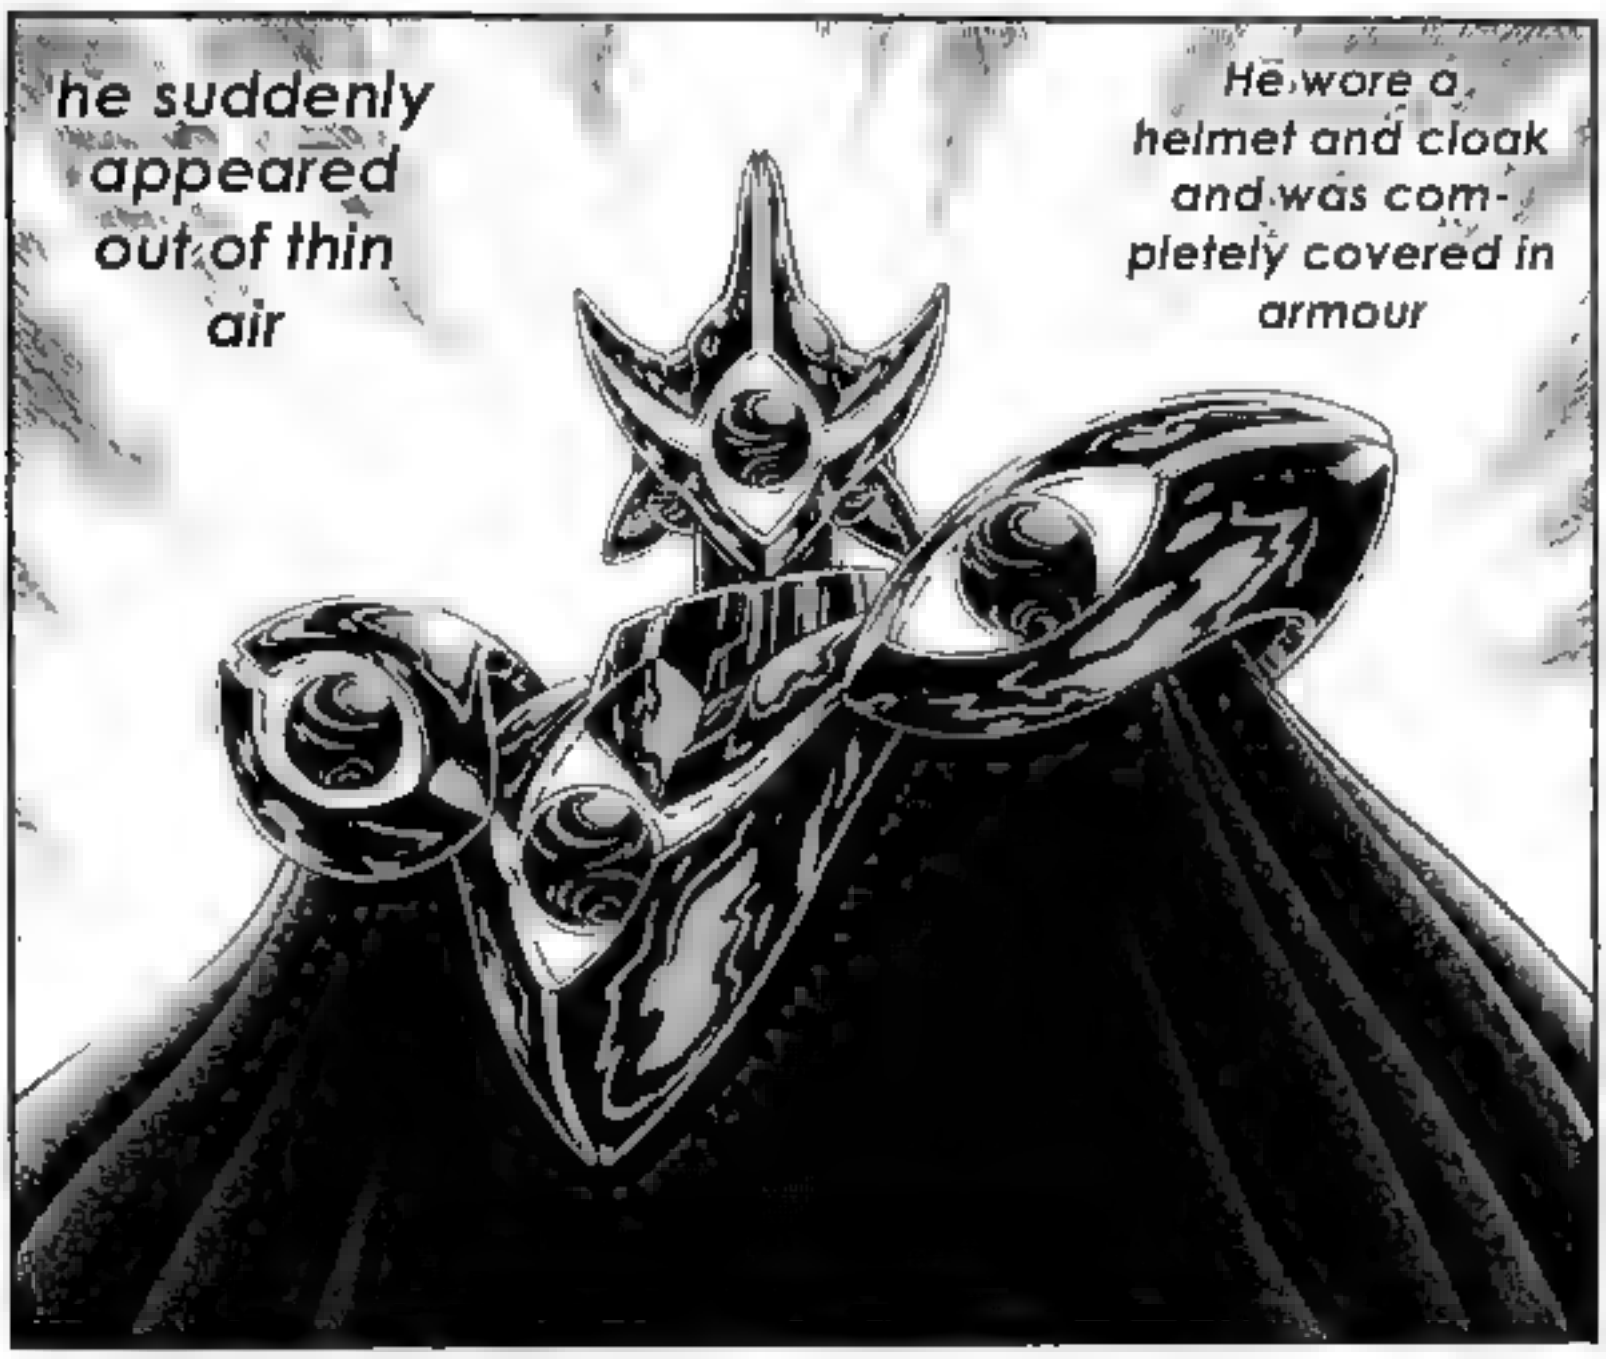
Guyot failed.

Making assessments and plans to attack at a time

when had left the mansion.



The guy's name is "Apollon".



he suddenly appeared out of thin air
He wore a helmet and cloak and was completely covered in armour

I have no idea
What n the world? What is this guy?

Zoacrys ta s .

According to Guyot s remark

he's attack ng Zoa ords and co lecting the r "Zoacrysta s".

it is c ear that he is at least as powerful as a Zoalord

If that s the case

W th that power that guy could beat me and G. yot easily

before now I met on y a sing e Zoa ord that exceed ed so much energy.

n fact I perce ved Apo on s nher ent energy evels

The moment he appeared it looked like a Space Jump

In the blink of an eye Tetsuroo and Mizuki were kidnapped

That Apollon is

.....

So really there is no use in randomly searching to try to find those two

we don't know where he went

quite a guy but then what is his objective?

Asou-san is right.

Se.
Sempai!

Where on earth have you been taken?

Tetsurou-san, Mizuki...

If we can't find some kind of clue to there whereabouts

Mizuki, ?

Hmm . ah?
